

## Please join us for a symposium on Cardiovascular Genomics

At Foster City, CA on Feb 16 2017, 5:30 pm - 7:30 pm PST

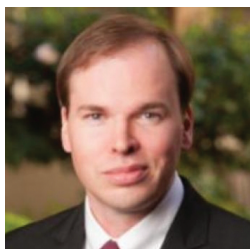

### **Dr. Sandosh Padmanabhan**

**Talk Title: Hypertension genomics and pharmacogenomics  
in the era of precision medicine**

Professor of Cardiovascular Genomics and  
Therapeutics, BHF Glasgow Cardiovascular  
Research Centre, Institute of Cardiovascular  
and Medical Sciences, University of Glasgow

Dr. Sandosh Padmanabhan's research interest combines epidemiology and randomized clinical trials incorporating high-throughput genomics and metabolomics in the dissection of cardiovascular traits and drug response. He is a member of several prestigious scientific bodies. He also chairs the educational committee of British Hypertension Society.

### **Dr. Matthew Wheeler**

**Talk Title: Multiomics insights into inherited cardiomyopathy  
and rare diseases**

Executive Director of the Stanford Center for  
Undiagnosed Diseases, Physician-scientist with the  
Stanford Center for Inherited Cardiovascular Diseases

Dr. Wheeler's research interests include mechanisms and therapeutics of myocardial disease and rare disease genomics. He has experience in translational research, clinical trials in inherited cardiomyopathy and the application of multiomic data for rare disease discovery.

Please RSVP by email to : [hiranjith.gh@medgenome.com](mailto:hiranjith.gh@medgenome.com) to confirm your participation

**THURSDAY,  
FEBRUARY 16, 2017**

**5:30 pm – 7:30 pm PST**

**MedGenome Inc.  
348 Hatch Drive  
Foster City, CA - 94404**

*Cocktails & Dinner will be provided*
